To Whom It May Concern

We were introduced to Mike Gasque and Tommy Dacus fall of 2017 while considering a location in Greenville SC. We moved forward with the project and hired SE Construction Resource as our contractor.

We always had a clear understanding of project cost and the construction schedule. We were very pleased with the economics and execution. Mike and Tommy hold our exposure and investment top of mind and are passionate about maintaining quality work with a very proficient schedule.

They are now handling a project for us that is in process in Charleston SC and will also start a 2nd Greenville location mid-summer. We highly recommend SE Construction Resource for commercial projects. I'm available for any question.

Best regards,
