To whom it may concern:

I have had the opportunity and pleasure of working with Mike and SE Construction on several recent retail projects that we developed. We have also referred SEC to several retail/restaurant clients that we represent. All have been thoroughly pleased and satisfied with the work. The attention to detail, responsiveness to issues (along with providing possible solutions), follow up, estimating in order to give us an idea of budget during due diligence and prior to closing, competitive pricing including suggestions for "value engineering" and quality subs are just some of the benefits of SEC. But most importantly, Mike and SEC are honest, trust worthy and take ownership (even with mistakes on their part or subs) with each project. I was "sold" when I did a walk thru with Mike personally on our first job and the 3 units were in the cleanest "broom clean" condition that I had ever seen...and come to find out that Mike himself had been the "sweeper" that day. That type of action says a lot about a person and their company. I "100%" recommend SEC for contractor services.

Sincerely,

Greg Carter
