Dear Mike,

I wanted to take a minute to reach out to you and thank you and your team for a great job on our last two projects and I wanted you to know that it was an absolute pleasure to work with you and your team.

Not only did our projects come in on time and on budget, the level of communication during the construction process from your team helped us avoid any potential pitfalls that have occurred during other construction projects we have worked on.

I would be remiss if I didn't take a minute to recognize the great job done by our Project Manager, Tommy Dacus. He did a great job of making sure we were informed throughout the entire process and his consistent relay of information really helped us with the pre-opening planning required for our locations. In addition, his follow up since completion has been excellent and shows the depth of caring that you and your staff have for their clients.

Thanks again and we look forward to working with you and your team on future projects.

Sincerely,

Scott Beville
